

An Oldie and a Goodie

Here's a picture of George Kaley looking justifiably pleased with his recently renovated Precedent BiFly (a very good flyer if a bit on the heavy side).

But who else remembers it?

Here's another picture of the same plane adorning the cover of the club newsletter in 1992 when the Ed (one Mike Minty) was the

proud owner.

But it's been around more than 20 years! The Berrys, Bob and son Dave built it in the late 80s I think, then I had it, the Wolfes had it, and I think Tony Martin did too. Does anyone else claim some time ownership?
